ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: June 21, 2000/ 3 p.m.

Site Contact(s): Carolyn Hicks, Building 776
Phone: 966-5773

Regulatory Contact: Cindy Burbach, 692-3315
Edd Kray, 966-2115

Agency: CDPHE

Purpose of Contact: To notify CDPHE that we have a concern with potentially explosive chemicals in Chemical Exclusion Areas in two fume hoods in Room 445.

Discussion:

I left messages for both Cindy Burbach and Edd Kray on this issue. Last week I notified CDPHE of planned entry into two Chemical Exclusion Areas in fume hoods #28 and #29 in Room 445, SET 43. Today one of the workers who previously did work in the fume hoods said they may have used picric acid. The Building 776 Chemical Control Administrator notified site SMEs for reactive chemicals (Radian Corporation) who will assess the situation and advise how to proceed. The hoods have been out of service for ten years or more. Cindy returned my call and said she would like to be kept updated on our activities.
